ABOUT THIS COURSE CONTENT

In this course, you'll take the first step toward ensuring audit- and compliance-at-scale by deploying Puppet Enterprise (PE) and using it to gather and inspect information about the systems in your infrastructure.

In this course, you will:

- Install and configure Puppet Enterprise.
- Deploy Puppet agents.
- Gather and audit information about systems in an existing enterprise IT

training.puppet.com/learn/course/247/play/691/pe101-deploy-discover-lesson-1

PE101: Deploy & Discover - Lesson 1

100% COMPLETE

- The primary server
- Lab 1.0: Install the primary server
- Monitor PE
